Ohio Democrats in Convention At Columbus—Johnson Loses.

OPPONENTS IN CONTROL

The Only Concession the McLean-Kilbourn Faction Will Make Will Be the State Tax Platform.

A DEMONSTRATION FOR JOHNSON

Columbus, O., July 10.—There have been lively scenes in the Democratic state convention today. Tom Johnson's delegates started a demonstration, but the state taxation plank will probably be the only concession made to the Johnsonites by the conservatives, who are in full control.

The committee on organization yesterday afternoon, in order to expedite business, voted to make the entire temporary organization permanent. The committee on resolutions stood 17 to 4 against special mention of free silver in the platform in addition to endorsing the Kansas City platform; 15 to 6 against endorsement of the Kansas City platform without any further declaration of silver; 14 to 7 against reaffirming the Kansas City platform with the Johnson plank on state taxation. There were some who favored no reference to the Kansas City platform. No vote was taken, the tally on preferences being secured from the speeches as each one was called on for his views.

The McLean-Kilbourne element at the district meetings yesterday secured control of all the committees and accordingly have everything their way. They were so strongly in the majority that there was no friction. The controlling element did not "ride rough shod" over the minorities in any of the districts, but when names were proposed for places on committees there were inquiries as to how they stood and if the replies were not satisfactory "they were excused," in some cases as quietly as jurors and in others with ballots. The McLean-Kilbourne element, while unusually courteous, made no concessions. The old state committee met previous to the district meetings and gave the tickets of the McLean-Kilbourne men where there were contesting delegations and they took all the districts except those which included Cleveland, in which the unit rule they could not control a vote.

Mayor Tom L. Johnson who was in Brooklyn, called Charles P. Salem on the long distance telephone and had a talk with him regarding the plans on a revision of the taxation laws of the state. When Salem informed the mayor as to the situation and that the McLean-Kilbourne men controlled the committee on resolutions, as well as all other parts of the convention's organization, Johnson advised Salem never to surrender, but to insist both before the committee on resolutions and in the convention for the incorporation of the Cuyahoga plank, which specifically mentions railroads and other corporations as not bearing their full portion of the burdens of taxation.

WANTS DIVORCE.

MRS. W. R. ELLISTON FILES SUIT AT NASHVILLE, ALLEGING ABANDONMENT.

Nashville, July 10.—A divorce suit filed in the chancery court of Davidson county, but which has never gotten into the papers, came to light today. The complainant is Mrs. W. R. Elliston, who was Miss Salene Jackson, daughter of Gen. Wm. H. Jackson, of Belle Meade, against Wm. R. Elliston, member of an old and distinguished Tennessee family. Elliston shot and nearly killed his brother-in-law, Edwards Sinclair, near Russellville, Ky., winter before last, and soon after that affair skipped out. It is said he first went to Cuba and thence to England, where he now is, engaged in trap shooting exhibition for an English gun house. Mrs. Elliston charges desertion and non-support.

BIG PENSION BALANCE

Washington, D. C., July 10.—The report of the Commissioner of Pensions for the fiscal year just ended will show that the Commissioner will turn back into the Treasury \$5,000,000 as an unexpended balance of the amount appropriated for pensions. The total appropriation made by congress for pensions was \$10,000,000.

Mr. Evans stated that up to date there had been filed 45,000 claims for pensions arising from disabilities received by soldiers in the Spanish-American war.

Washington, July 10.—The Chinese government through Minister Wu Ting Faung, has filed a claim for indemnity to the amount of a half million dollars on account of alleged outrageous treatment of Chinese at Butte, Mont. There is a suggestion of Boxer outrages reversed in the presentation of the case to the state department, the treatment inflicted upon the Chinese at Butte being claimed to have been cruel and oppressive. The claimants number several hundred.

The outrages date back to 1886 and it is declared that the city council of Butte and the state court upheld the rioters and the boycotters.

He was at his way home and near the powder magazine, on the Cairo road, the men stopped him and went through him, getting what small change he had, amounting to a few dollars.

They then took his hat, and stripped him of all the clothes that he could reasonably spare. They used a brick on his head when he objected, and beat him up quite severely. When they had gotten about everything that was not tucked onto him, they told him to run, and hit him a parting blow with a brick.

There is no clue to the identity of the thieves.

It was alleged that this was introduced by opponents of corporations. The convention declined to include a prohibition of convict flogging in the prisons.

Bear Admiral C. Cowlishaw, chief of the Bureau of Navigation, has issued a statement, in settlement of the momentous question who wrote the celebrated dispatch to Dewey to proceed to Manila and sink the Spanish fleet. He wrote it himself, but says the credit for having given the order belongs to President McKinley and Secretary Long. The word "capture" or "destroy" was added to the original dispatch. But no matter who sent the dispatch, Dewey did the work.

In telling a few things that the Republican party has done, the Chicago Chronicle forgot to mention the important fact that it has run the government for about forty years on a stretch, with the exception of a couple of sorrowful interruptions when the Democrats successfully demonstrated what they didn't know about governing a nation. If the Republican party is such an awful thing, it is rather strange that the people of the United States are so long in finding it out.

Ex-Governor W. S. Taylor's many friends in Kentucky, as well as elsewhere, will sympathize deeply with him in his latest and deepest trouble, the loss of his wife. Gov. Taylor has had a great deal to contend with the last two years, and his present bereavement comes as a sad climax to his troubles. He is left with seven children, and is forced by the men who have been hounding him for over a year, to bury the remains of his beloved wife in another state.

The girl artists of Paris have no pridery about them. When it comes to drawing male models the superior council of one of the academies suggested that they be poised in bathing attire, but the young ladies' artistic instinct overcame their scruples, and they demanded the same treatment accorded girl students in medicine, and their demands will be acceded to.

Another argument in favor of paying our consuls more is the recent resignation of Consul General James G. Stowe, who gave up his position at Cape Town because the salary, \$3,000, was too small to properly maintain the dignity of the place.

Ex-Secretary of the navy Herbert, says the Globe Democrat has shattered his chances with the Democratic party by coming out in favor of independent voting and honest elections.

MEETING CALLED.

DEMOCRATIC COUNTY COMMITTEE WILL MEET JULY 29 AT THE COURT HOUSE.

MR. RICHARD HOLLAND TO BUILD EIGHTEEN ON WEST TRIMBLE.

Mr. Richard Holland, of West Trimble street, is soon to begin the erection of eighteen cottages on West Trimble street and Bernheim Avenue. Some of the work has already begun, and the houses will probably be completed in a few weeks.

NOT CERTAIN.

WHERE THE STATE GUARD ENCAMPMENT WILL BE HELD.

Frankfort, Ky., July 10.—The annual encampment of the State Guard will begin about August first next, instead of July 21, as heretofore stated and it may be held at some other point than Grayson Springs. Acting Adjutant General Haley and Maj. J. Embry Allen, of Lexington, will meet in the next day or two to go to Shively and Owensboro to inspect the camp sites offered, and the camp may be located at one of those places.

COL. CALDWELL says he had thought Mr. Potter was chairman all the time, but there had been some talk of his being ineligible to hold the place, and he suggested the committee meeting to settle the question.

UNUSUAL CASES.

BLIND MAN WHO STOLE, DEAF MUTE WHO SWORE.

Atlanta, July 10.—A blind man charged with stealing a dray by night and a deaf mute accused of cursing a woman were two apparently paradoxical cases tried before Recorder Broyles.

The evidence failed to show that A. Pope, the blind man, was innocent of the accusation of appropriating and carrying off the dray, and he was bound over for further hearing.

The deaf mute, Mary Freeman, fared better, for although the prosecuting witness, Ella Overton, vehemently declared that the speeches and unhearing Mary had cursed her in signs, Judge Broyles' credibility could not stand so strong a tax, and he dismissed the case.

The readers of this paper will be pleased to learn that there is at least one dreadful disease that science has been able to cure in all its stages and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work.

GOOD CONDITION.

NATIONAL BANKS ARE REPORTED IN A MOST PROSPEROUS STATE.

New York, July 10.—Controller of the Currency Dawes is quoted by the Washington correspondent of the Press as saying, relative to the condition of the national banks of the country:

"The latest detailed reports received from the national banks of the United States indicate an unusually high degree of prosperity. The condition of the national banking system can be taken as a practical barometer of the industrial and commercial condition of the country generally, and therefore the remarkable showing now being made by these institutions indicates clearly that every branch of American trade and industry is flushed to a correspondingly high degree."

"The resources of the banks are greater than ever before in the history of the national system, and the condition of the banks generally is satisfactory."

The present condition of the banks stands out in strong contrast against the dark background of the condition that prevailed some seven or eight years ago. In 1893, for instance, the record for bank failures was reached, when thirty-eight of the national banks went permanently into the hands of receivers. During the first six months of the present year only seven banks have failed, while during the entire year of 1900 only five went under.

Children from Stomach Diseases which Laxakola Cures.

It is a dangerous thing to give little babies violent remedies that rack and rend their little bodies. DON T DO IT—give them Laxakola. For constipation, caused by overeating, colds, etc., Laxakola is the best. It is safe and made entirely of harmless ingredients. Laxakola tones relieves and speedily cures these by toning up the stomach, increasing the flow of gastric juice, resulting in a return to the natural feeling of good health.

ANOTHER ARGUMENT.

Another target shoot was held by the Gun club yesterday afternoon at La Belle park, and the scores were as follows: Mr. and Mrs. John Lehrer, Misses Norma Beyer, May Bleich, Laura Petter, Clara Beyer and Nellie Bleich and Messrs. TO ALL PERSONS HAVING FARMING, TIMBERED, OR MINERAL LANDS, OR WATER POWERS FOR SALE.

The Nashville, Chattanooga St. Louis Railway proposes to use its best efforts to induce a good class of immigrants to settle in territory contiguous to its lines and to engage the attention of capitalists seeking Manufacturing Sites or Mining Property. It therefore solicits the support, the cooperation and the assistance of the people of every county through which its lines pass.

The management earnestly requests that all persons who have farms for sale or lease, those who have timbered lands, water powers or mineral lands for sale, will send a brief description of the same to the railroad agent nearest them, giving the prices and terms of sale. The prices must correspond with the prices asked of local buyers.

Large tracts suitable for colonization, at low prices, are especially wanted.

A BAD NEGRO

Conductor On An Illinois Central Train Had a Close Call Yesterday.

MAN REPORTED SHOT

Foreman Of the I. C. Wrecker Painfully Hurt—Construction Engineer Here Today at Work.

LOCAL NOTES OF THE RAILROAD

There was a lively time on the Louisville passenger train yesterday between White Plains and Nortonville. An unknown negro, pretty much full of bad whiskey, boarded the train at the former place and when asked for his ticket replied that he had none and did not intend to pay his fare. The conductor informed him that he would have to pay or get off.

The negro pulled a pistol on the conductor and would have fired but for the quick action of the conductor who snatched the gun, unloaded it and after clubbing the negro over the head with the butt returned the pistol. When the train reached Nortonville the negro was put off and as he left the train got into more trouble and several men shot at him according to reports. The negro was struck several times. The shooting was done as the train pulled out of the station and the trainmen could not learn the result.

Mr. G. F. Fields, the foreman of the wrecking train, is at his home, corner Ninth and Clark streets suffering from a bruised right leg. He was at work on the wreck at Trimble, Tenn., loading the trucks onto a car for transportation to this city, and when the last was placed into the crane it slipped and fell on Mr. Fields.

The trucks caught his right leg and badly bruised it from the knee down. The injuries are not of a very serious nature but the patient will not be out for several days.

The stalls in the mechanical department of the local Illinois Central

shops are filled and the company has

all the work it can attend to. Things

are running in the best of order, and

much work is being done.

Engineer Fitzpatrick, of the Louis-

ville division of the Illinois Central and his assistant Mr. Driscoll, of Louisville, are in the city on busi-

ness. They will survey the grounds of

the local Illinois Central hospital and

do other work about the various de-

partments. This is Mr. Fitzpatrick's

first trip to Paducah and his first

work in this city since he received the appointment to succeed Mr. L. A. Washington as the engineer of this

division of the road.

Supt. H. U. Wallace and Roadmas-

ter Pat Galvin, of the Louisville di-

vision of the Illinois Central, re-

turned home this morning after a busi-

ness trip to this city and an inspection

of the wreck at Dawson yester-

day.
